

**CROWN KING GEORGE EMPEROR OF INDIA**  
KING GEORGE AND QUEEN MARY IN TERMINATING ACT OF ACCESSION TO THRONE.

**WAS GRAND SPECTACLE**  
Hundreds of Great Hereditary Princes of India Present for Great Event—Military Plays—Large Part.

**King Makes Donations.**  
The crowning was followed by an act of generosity of the King Emperor's part of which a slight hint has already been given. The Emperor proclaimed that the King Emperor was to donate a large sum of money to promote popular education and for their many handsome gifts would be made.

**Amphitheatre Crowded.**  
The huge amphitheatre which has been erected in the Durbar camp was thronged from an early hour. The bright colors and startling gowns of the many Indian princes and the smart uniforms of the soldiers contrasted strongly with the white dresses of the European ladies and the sober garb of the civilian officials.

**The Imperial Carriage.**  
The sound of a military salute greeted the approach of the Emperor and Empress. The royal carriage drawn by four magnificent horses was almost hidden from view by the dressed escorts. The Emperor wore a robe of imperial purple, a sash of purple with white satin breeches and white stockings. He was decked with the collars of orders of the Garter and the star of India and also with the star of the latter order.

**Imperial Crown.**  
The Imperial crown consisted of a band of diamonds studded with large emeralds and sapphires with rubies in the center and a cap of purple velvet trimmed up with ermine.

**How Queen Was Dressed.**  
The Queen Empress' dress was of white satin embroidered with a design of roses, thistles and shamrock with a border of lotus flowers. The star of India was embroidered on the front of her dress. Her majesty's imperial robe was of purple velvet trimmed with ermine and with a border of gold braid. She wore the badge of the order of the Garter and the star of India. Her ornaments were a diamond and emerald necklace.

**FIRST ADJUSTMENT OF A DEATH CLAIM**

**State Industrial Commission Awards Family of Deceased Wausau Worker \$3,000 for Three Years.**  
[BY ASSOCIATED PRESS.]  
Madison, Wis., Dec. 12.—In adjusting compensation for the death of Edward Thral of Wausau, killed in a fall from a ladder, the state industrial commission this week is settling the first death claim under the new workmen's compensation law. Thral lost his life on December 5, and a week later the final settlement was nearly completed. He was an employee of the Wausau Sulphate Fibre company, whose risk for his employees was insured in the newly incorporated Employers' Mutual Liability company of Wausau.

Thral's wages amounted to \$35 per month. Under the law, the compensation for his widow and two children is four years' wages, with the maximum limit \$3,000. Had he lived, his four years' earnings would have been over \$4,000, but it is estimated that the \$3,000 allowed will cover the amount which his dependents would have received had he lived. The compensation is fixed by the commission, to be paid to the widow and children, is \$14.42 a week. This sum will be paid periodically until \$3,000 has been paid. It is expected to tide them through the next few years and provides for all necessities.

A second venire of fifty is expected after a conference between Judge Carpenter, the packers and the district attorney, would not be called until after today. There remain fourteen men of the first venire who have not been questioned and it is intimated that both sides might be satisfied from among these.

**RUNAWAY FREIGHT DOES FATAL WORK**

**Crashes Into Machine Shops at Scranton, Pa., Burning Them Down And Causing Five Deaths.**

**Scranton, Pa., Dec. 12.**—By the runaway of a freight train in Carbondale yard of the Delaware and Hudson company today, four or five men were killed and five injured, two of whom will die. The machine shops of the company were set on fire and burned together with five locomotives. The dead were recovered from the wreckage, but the others yet unknown are buried beneath the debris.

**NO SHORT MEASURE ON BINDING TWINE**

**Thread May Also Be Measured by New Apparatus—Five Inspectors to Enforce Law.**

**Madison, Wis., Dec. 12.**—The housewife anywhere in this commonwealth who thinks that the last spool of thread she bought is short measure, now has a friend in the sovereign state of Wisconsin. By sending the thread to the weights and measures department of the state and food commission it will be spun around a "thread reel," a device built solely for measuring thread, twine, etc. Within a year, the commission proposes, a great saving to the farmers of the state in the detection of short measure in binding twine will be effected by the state. This service will be done free of charge.

New testing apparatus and standards have been bought at an expenditure of from \$3,000 to \$4,000. These include sixty 50-pound weights to be used in testing wagon scales. Placed in a case, they will be carried by inspectors of the department, and no scale in the state will escape the official comparison when the inspectors really get to working. Five inspectors have already been sworn in and another will be added.

The new equipment also includes standard dry measures from the half bushel down to the pint, made of solid brass and certified by the federal bureau of standards as absolutely correct. A hardware company the other day sent in four dry measures to be tested, and the comparison with the new standards showed an error of four to six short in measure—the two quart measure being one cubic inch to the bad. Another acquisition is a Becker chemical balance. Still another is a salt lake City assay balance, which is delicate enough to weigh a hair, and is adjusted to weigh one-hundredth of a milligram. The device can be utilized in poison cases. Specially made, costly tables for the balances have been acquired.

Supt. P. P. Downing calls attention to the provision in the new law stating that the wrapping of binder twine scales must not be included in the weight of the twine. This sometimes weighs from five to ten pounds in itself.

**REGISTERED MAIL TAKEN BY ROBBERS IN DARING HOLD-UP**

**Atlantic Coast Passenger From Savannah to New York Robbed Shortly After Day Break Today.**

**Savannah, Ga., Dec. 12.**—The Atlantic coast line train No. 802, which left Savannah for New York this morning at 12:34 o'clock, was stopped by robbers near Hardeeville, S. C., just before day break. Several packs of registered mail were taken. The train was running in two sections. The express cars in which it is believed the robbers aimed, were carried on the second section and escaped attack. D. H. McElroy, the night telegrapher at Hardeeville, cleared the train from that station. Soon after it got away, but before it had gone out of sight, it stopped.

A few minutes later the second section arrived from Savannah. The crew ran ahead to find out what had happened to the first section, but by this time the robbers had escaped. The hold-up men who had been passengers on the train, forced the telegrapher to stop, and covering the flagman and conductor with revolvers, they made the flagman open the mail car after it had been detached from the train and ran forward some distance. Here the two mail clerks were made to give up the registered mail. A posse was sent out from Savannah.

**PATRICIDE CHARGED AGAINST INDIAN**

**Vincennes, Ind., Dec. 12.**—Every thing is in readiness for the trial of S. Edward Stobblins, the young man who is charged with first degree murder as the result of the mysterious killing of his father, George W. Stobblins. The case was on the court calendar for today and it is expected to proceed with the trial without delay.

The older Stobblins was shot and killed while feeding cattle on his farm near St. Petersburg on the night of November 17, last. The revolver used by the murderer was taken out of the man's coat where the body was found. The theory of suicide was advanced by members of the Stobblins family, but the authorities placed no credence in it after it was shown that the dead man wore heavy mittens and there were no powder marks near the wound.

The son, Edward S. Stobblins, was taken into custody and later charged with murder, upon evidence that he had been on friendly terms with his father for some time and was unable to give a satisfactory account of his whereabouts at the time the crime was committed. The accused man is thirty-two years old and a graduate of the State Normal school. For some years he has been engaged in teaching. Other members of the family have declined to discuss the crime other than to assert their belief in the innocence of the son.

**JAMES B. MCCREARY INAUGURATED TODAY**

**Frankfort, Ky., Dec. 12.**—After a lapse of more than thirty years James B. McCreary, for the second time in his long career of public service, was today inaugurated governor of Kentucky. The inauguration crowd was the largest ever seen here.

The parade of military companies, Democratic marching clubs, civic organizations and military cadets was the feature of the day. Another feature was the presence of hundreds of Confederate veterans, who were doubtless attracted to the inauguration by the general feeling that Governor McCreary probably will be the last one of their number who will be chosen as chief executive of the Blue Grass State.

The governor-elect and his family reached Frankfort last evening on a special train, accompanied by a large delegation of his neighbors from Richmond, and under the escort of a special legislative committee.

The inaugural exercises were held on the front steps of the new capitol. The exercises were opened with invocation by Rev. J. P. Zerkler. Mayor James H. Pobergrave introduced Governor Wilson, who delivered his farewell address. Chief Justice Holston then administered the oath of office to the new governor. Following Governor McCreary's inaugural address, Lieutenant Gov. E. J. McElmott was sworn in. After the exercises were concluded, Governor McCreary held a public reception in the capitol.

**MEN CONFESS TO HAVING MANUFACTURED BAD MONEY**

**Chicago, Dec. 12.**—Albert Leon, Rudolph Swanson, and Fred Marneok, who have manufactured thousands of dollars in counterfeit notes according to their confession pleaded guilty in the U. S. district court today. Leon and Marneok were sentenced to ten years each and Swanson to five years, the notes were manufactured in a cabin located in a dense forest of Alaska.

**RUSSIAN TREATY AGAIN BROUGHT TO THE FRONT**

**Washington, Dec. 12.**—The house committee on foreign affairs today unanimously agreed on the Bulzer resolution directing the immediate abrogation of the 1832 treaty between the U. S. and Russia because of the discrimination by Russia against American Jewish citizens in the recognition of passports. The committee will urge Congress to take quick action on the resolution.

**ESCAPED JUROR IS STILL AT LIBERTY**

**Henry Waldron, Juror in Hyde Trial Who Disappeared Yesterday Not Located Today.**

**Kansas City, Dec. 12.**—Henry Waldron, who disappeared yesterday while serving as a member of the jury that is trying Dr. B. Clark on charge of murdering Col. Thos. H. Swope, has not been found. Scores of officers searched in vain for him last night. Not a single clue regarding him was received.

**NORTHWESTERN LAND SHOW AT ST. PAUL**

**Every Available Foot of Space in Auditorium Occupied by Exhibits.**

**St. Paul, Minn., Dec. 12.**—The Northwestern Land Products Show, under the auspices of the Northwestern Development League opened in the Auditorium today with every available foot of space occupied with exhibits. The object of the exhibition is to aid in the development of Oregon, Washington, Idaho, Montana, North Dakota, South Dakota, Minnesota and Alaska. Scores of attractive booths are filled with sample products from the soils, lakes, rivers, forests, mines and factories of the Northwest. The exhibition is intended to be educational to the home seeker, the farmer, the railroad man, the manufacturer, and to those who are investigating, influenced by the wide-spread "back-to-the-soil" movement.

**STANDARD OIL CASES SWEEPED FROM DOCKET**

**Suits Pending Against Corporation in Ohio Court Dismissed Because of Supreme Court Decision.**

**Cincinnati, O., Dec. 12.**—As a result of action to be taken by the Circuit Court which convened here today, the court will be swept of all Standard Oil litigation, a situation that has not existed in Ohio for many years. The various suits pending against the corporation and its subsidiaries will be dismissed for the reason that all of the points involved in the suits were covered in the recent decisions of the United States Supreme Court.

**SON OF WEALTHY PARENTS A THIEF**

**Richard Beau, Son of Rich Father Breaks Into Catholic Church to Rob Altar Decorations.**

**Chicago, Dec. 12.**—Hungry and without further means of keeping his small room in a State street lodging house, Richard Beau who said his father was a wealthy resident of Philadelphia, broke into St. Michael's Roman Catholic church today in a confessed effort to rob the altar. The Rev. Michael Kline, one of the pastors was aroused by the breaking of a dog in the church and discovered Beau who is 22 years old. St. Michael is the largest Roman Catholic church in the city and its equipment is rich. Beau said he left home when his father married a young woman.

**TAFT'S LAND POLICY IN THE PHILIPPINES TARGET FOR AN ATTACK.**

**John T. Kenney Hits at Government's System in Speech Before Tri-State Titlenmen's Association.**

**Watertown, N. Y., Dec. 12.**—President Taft's land policy in the Philippines was the target for an attack made before the Tri-State Titlenmen's association here this afternoon by John T. Kenney of Madison, Wis., president of the Wisconsin State Titlenmen's association. He declared that the "Torrens" system in the islands has been a complete failure. He said:

"The Doomeday Gooks were a land title register of exactly the same kind which we are urged to adopt in the various states of this country today. It is exactly the same system which William H. Taft introduced in the Philippines in 1903, and which the 1910 report of the civil government conclusively shows and practically admits to be an absolute failure."

**NEGRO DISMISSED WHEN CASE IS CALLED TODAY.**

**Madison, Dec. 12.**—Edward Simmons colored, who shot and killed Edward Rose, also colored, was discharged in municipal court this morning in conformity with the coroner's verdict which returned the killing that Simmons shot Rose on the grounds of self defense.

**SCATHING ATTACK ON "LABOR TRUST" IS MADE BY KIRBY**

**President of National Association of Manufacturers in Hot Remarks Before Business Congress.**

**Chicago, Dec. 12.**—Union labor President Samuel Gompers of the American Federation of Labor and the Manufacturers' brothers were the subject of discussion today at the second day's session of the National Business Congress. The bitter attack against union labor made yesterday by Henry Willis, of Wisconsin, was followed up by an even more severe arraignment by John Kirby, President of the National Association of Manufacturers.

**Hits "Labor Trust."**  
Mr. Kirby attacked President Gompers and the McNamara. Mr. Kirby's remarks concerning the "labor trust" as he called the federation, were sharp. He called the federation of labor as represented by Samuel Gompers, monopolistic labor, and said "Organized labor has a determined policy that was either to control or ruin the commerce and industries of the country."

**Workers at Mercy.**  
He said his record and the utterances of his officers left no shadow of doubt that his policy is to employ any means, no matter how brutal, unlawful or unreasonable, which would produce a condition for workers that they would be absolutely at the mercy of, and dictation of the gigantic and merciless labor trust.

**No Regard for Flag.**  
Again he caricatured the labor organization as a cold, merciless organization with no regard for the flag, and said labor leaders asked punishment of the McNamara, not because of guilt, but because they confessed.

**CLARK MENTIONED FOR THE POSITION**

**Jansville Man Favored by Friends for His Former Position—Veterinarians in Meeting Monday.**

**Madison, Wis., Dec.**—About thirty veterinarians from various cities gathered here yesterday by private arrangement and visited Governor McGovern relative to the appointment of a successor to A. H. Hartwig, resigned. It is understood that the candidacy of Dr. D. B. Clark of Jansville and Dr. W. A. Walcott of St. Francis, formerly of Sheboygan, were favored by some, and that neither met with the governor's approbation. Clark was state veterinarian under Governor Davidson and Walcott was his assistant.

From one of the veterinarians present, who said he did not know until he got there what the meeting was for, it was learned afterwards that the Clark-Walcott supporters would attack for the appointment of Dr. Tooley of Fond du Lac or Dr. Pattison of Beloit, both candidates for the place. Both were chief deputies under Dr. Clark, and the informant referred to above said that if either received the appointment he would choose Dr. Clark as one of his deputies.

Governor McGovern is said to have told the delegation that he would much prefer that some man not allied with either of the rival state veterinary associations be suggested upon whom they all might center their support.

The friends of Dr. C. A. Deadman, Madison, are backing his candidacy with personal endorsements, and they point out that during the recent secession of one faction of veterinarians from the association he had himself stood for the antagonisms which developed from the secession.

Another candidate, it is reported, is Dr. Charles Schmitt, Dodgeville, who has been on the staff of former veterinarian Hartwig.

**WAUSAU ATTORNEY DIED LAST NIGHT**

**P. C. Ryan, Prominent Among Members of Legal Profession of State Suddenly Passed Away.**

**Wausau, Wis., Dec. 12.**—P. C. Ryan, prominent attorney of this city died last night from stomach trouble. Mr. Ryan was well known among the legal profession throughout the state. He held offices of district attorney and county judge at Berlin before coming to Wausau.

**COMPLETE THE FIRST STEP IN CONSTRUCTION OF BRIDGE**

**Tube Runk And Piles Driven for First Pier of New Fourth Avenue Structure.**

The Central States Bridge company's crew drove the last pile today in the north tube which is to form one of the pair nearest the east bank. The other member of the pair, a tube of smaller diameter, will be sunk next. The orange post dredge to be used for that purpose, has just arrived here from Oklahoma where it had been used on another job. The delay in its shipment necessitated the sinking of the large tube first as the dredge that was here was too large.

**Twilight Club Tonight.** The regular monthly dinner and meeting of the Twilight Club will be held this evening at the Y. M. C. A. auditorium. "Taxation" will be the subject for discussion. M. O. Moutat is leader.

**REPUBLICANS DECIDE TO MEET AT CHICAGO**

**NATIONAL COMMITTEE SELECT ILLINOIS CITY BY OVERWHELMING VOTE.**

**QUESTION OF PRIMARY**

**Was Still in the Hands of Special Sub-Committee at Two O'clock—May Revive Southern Reduction Fight.**

**Washington, Dec. 12.**—The republican national committee, in session here today ratified the program which had been arranged in advance for its deliberation. The national convention to nominate candidates for president and vice-president will be held in Chicago, beginning Tuesday, June 18, 1912.

**Vote Overwhelming.**  
The vote in favor of Chicago was overwhelming, the ballot showing Chicago 42, Denver 7, St. Louis, 1, Absent 1. St. Louis formally withdrew from the contest before the voting began, but Col. Cecil Lyon, of Texas, insisted on casting his ballot for that city.

**Question of Primary.**  
The form for the call of delegates to the national convention, including the disposition of the troublesome presidential preference primary question, was still in the hands of a special sub-committee when the national committee recessed until two o'clock in the afternoon.

**Hill Named Chairman.**  
The committee accepted the resignation of Chairman Frank H. Hitchcock dated March 5, 1909, and effective April 1, 1909. Former Governor John H. Hill, of Maine, was elected chairman by acclamation. On the motion of Victor Rosewater, of Nebraska, a standing vote of thanks was tendered Mr. Hitchcock.

At the meeting of the executive committee the following sub-committees, to formulate the call to the convention, was appointed: Messrs. Kellogg, Minnesota; Borah, Idaho; Ward, New York; Rosewater, Nebraska; and Capers, South Carolina.

**May Curtail South.**  
It was said today that the fear of a fight in the next convention to curtail the southern representation, is well founded. Representative J. Francis Burke, of Pennsylvania, who led the reduction fight of 1908 and lost by a narrow margin, has again been called upon to lead the movement, and it is said that plans have progressed rapidly.

The committee on convention arrangements agreed to last night, with Col. Harry B. Now, of Indiana, as chairman was approved today but not without a final protest from those who opposed the plan. The majority report on the call for delegates was adopted 43 to 7. Senator Borah was supported in his minority proposition by the committeemen from Colorado, Idaho, Delaware, Nebraska, Oregon, South Dakota and Wisconsin.

**REPORT CHANG-CHOW IS AGAIN CAPTURED**

**No Details Learned of Reported Fighting at North Gate of Chang Chow—Troops Dispatched From Amoy.**

**Amoy, China, Dec. 12.**—Fighting is reported to have occurred at the north gate of Chang Chow. No details have come to hand. Troops were dispatched this morning from here to Chang Chow to restore order in the northern coast district.

**STOKES TRIAL SHOWS MANY NEW FACTS**

**Severely Arraigned Show Girl Who Is On Stand Today in Stokes Trial.**

**New York, Dec. 12.**—District Attorney Buckner, continuing his cross-examination in the Stokes trial, today asked Miss Graham about the visit the girl made on May 31, eight days before the shooting, to a department store where they bought the revolver with which she shot Stokes. Miss Graham said they had no intention of buying a gun when they entered.

Miss Graham denied all insinuations that she and her friend had ever over the telephone, told how they could ruin Stokes within reach. She also denied Mr. Buckner's suggestion that she had investigated the quickest way to Canada. When Stokes called up at their apartments the day before the shooting, and asked for Miss Conrad, the witness said she answered the telephone, but told him she was the maid. Coming down to the night Stokes was shot, Miss Graham said she thought she had gone to know and was surprised to see her. She admitted she was angry.

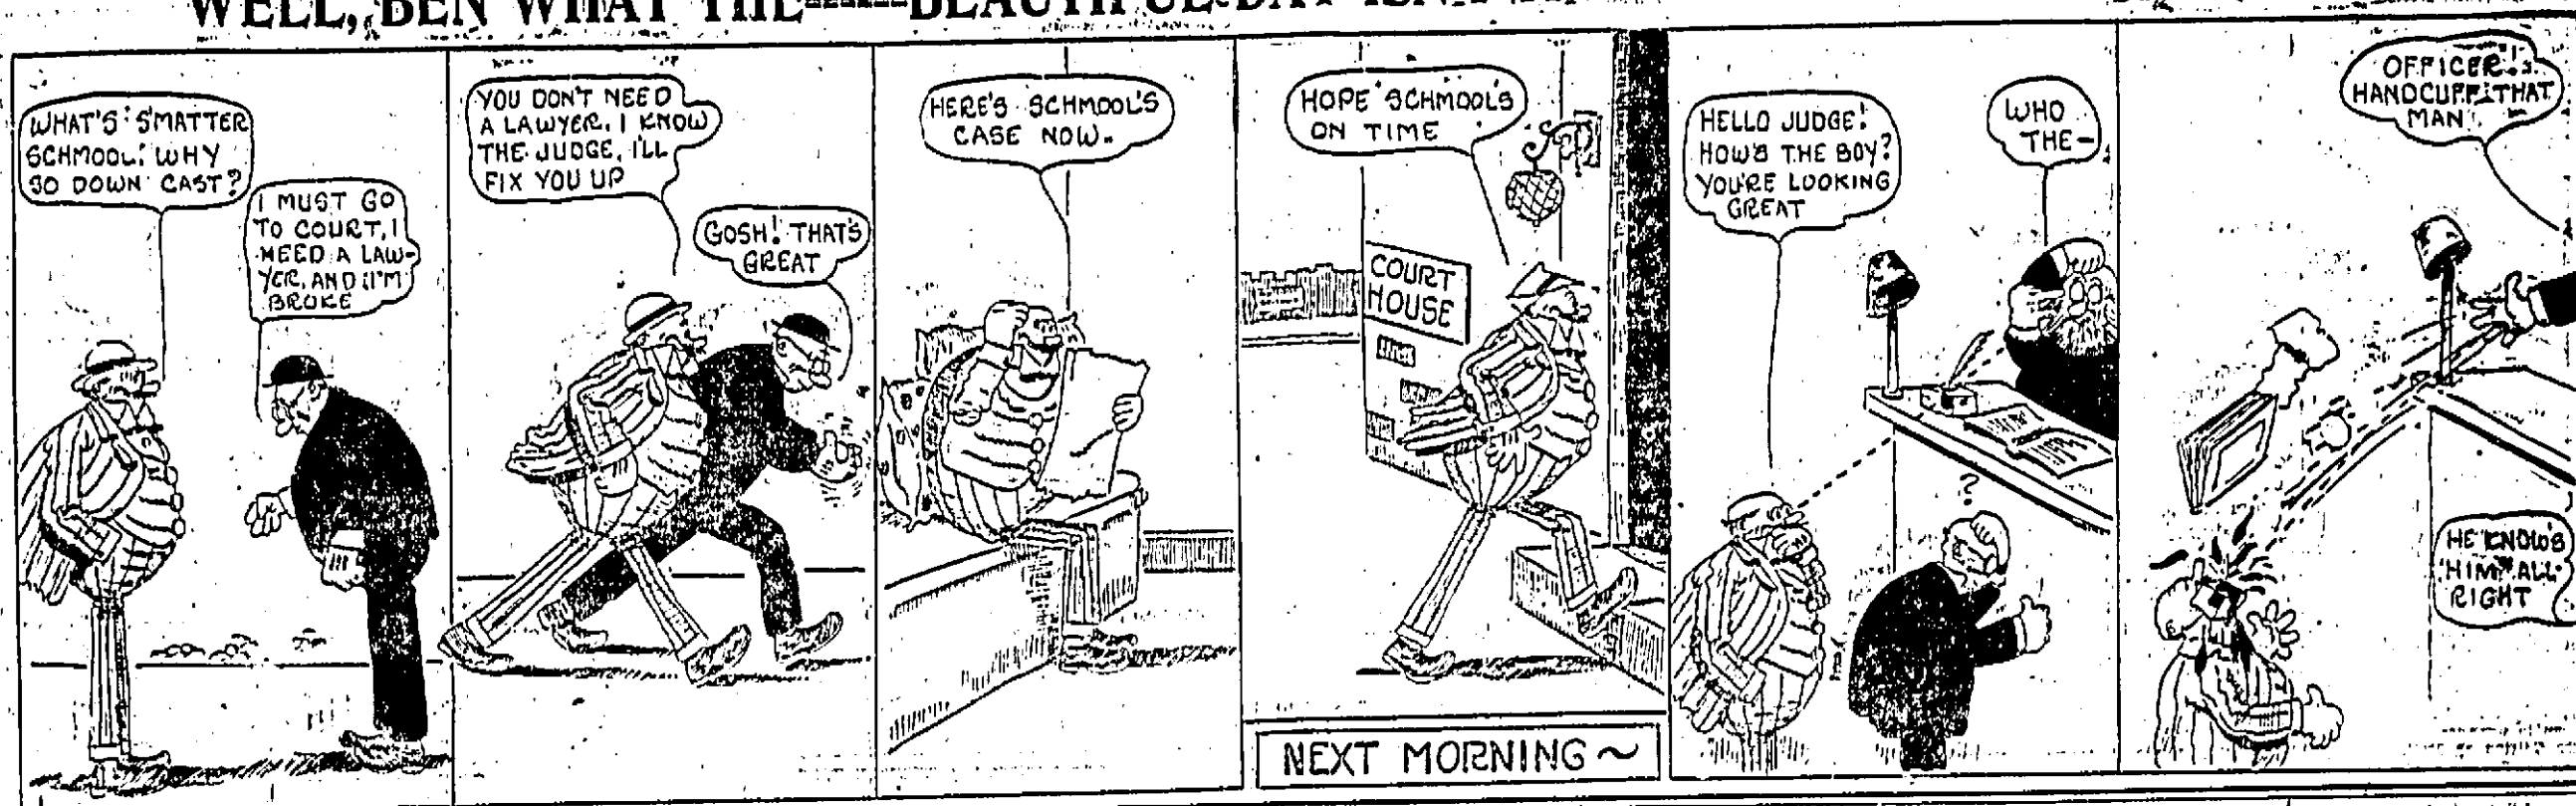

Miss Graham said she had heard the story of how Stokes had stalked her and pushed her down the hall and into her bedroom and against a bureau and how she reached into an open drawer behind her and got the revolver with which she shot him.

**Plans to Extend Foreign Commerce.**  
Philadelphia, Pa., Dec. 12.—Prominent manufacturers and importers from all parts of the United States assembled in this city today to attend the national export trade convention to be held under the auspices of the Philadelphia Commercial Museum. The chief object of the gathering is the discussion of plans for extending the foreign commerce of the United States, more especially with the countries of Central and South America.

## WELL, BEN WHAT THE-----BEAUTIFUL DAY ISN'T IT?

## RACINE LINOTYPE OPERATOR LAUDS

PROMINENT RACINE, WIS., CITIZEN LAUDS THE UNITED DOCTORS' TREATMENT. SICK FOR SEVEN YEARS.

WAS LINOTYPE OPERATOR FOR RACINE JOURNAL SEVENTEEN YEARS.

One of the most interesting testimonials that the United Doctors, who have their new Janesville Institute in the Hayes building, corner of Milwaukee and Main streets, have ever received is from Wm. Bell, of 612 Prospect Ave., Racine Wis., who was cured by the United Doctors of a complication of ailments including lung and renal troubles. Mr. Bell is a prominent citizen of Racine and is known to many people in Janesville. Therefore his statement, reproduced here in full, will be of intense interest to the sick.

To the United Doctors, Janesville, Wisconsin:

Dear Doctors:—For the last seven years I have been troubled with a serious affection of the lungs complicated by renal troubles which so undermined my strength and vitality that for weeks at a time I was not able to leave the house or attend to my business, which is that of Linotype Operator. I was also losing weight very fast. I have naturally doctored with different doctors but didn't seem to derive any benefit. I kept right on getting worse and losing ground. My voice had failed me entirely so I could not speak above a whisper; there was no sleep for me at nights, but cough, cough all the time and those dreadful night sweats.

I am thankful to be able to say that now after a short time of the United Doctors' treatment, my voice has returned and is strong and clear and the night sweats have entirely left me. I am gaining in weight and sleep and feel so much better and stronger that I shall go back to my work. The United Doctors have done wonders for me. Wm. Bell, 612 Prospect Ave., Racine.

The United Doctors' grand offer of free examination, free consultation, and free treatment, (except for out-of-pocket cost of medicines used) is open to all until December 20th.

The United Doctors treat, among other diseases and ailments, chronic and deep-seated diseases of the nerves, blood, kidneys, heart, liver, bladder, stomach, spleen, including rheumatism, paralysis, neuralgia, goitre, epistaxis, dyspepsia, weak nerves, eczema, asthma, scrofula, and many other diseases and chronic ailments.

The United Doctors' Institute is in the Hayes Building, corner of Milwaukee and Main St.

## LAKOTAS WIN FROM UNIVERSITY TEAM

Janesville Cardinals Win by a Score of 36 to 8 From Madison Cardinals Saturday Night.

Saturday night at the Elks the Lakota Cardinals triumphed the Wisconsin Cardinals by a score of 36 to 8 in a fast, though hot-sided game. Exhorting a hard fight from the stadium the locals started in with a rush and had scored several baskets before their opponents woke up. Good team work together with fancy basketball shooting made the Lakotas able to have things all their own way. Langdon and Booth not only holding their men down but getting into the team work with a jump. With Cunningham, Green and Hennings came in for the basket throwing. Cunningham's playing during the evening was excellent and he covered the floor with an effectiveness that brought cheers from the audience.

Saturday night's line-up was as follows:

JANESVILLE: MADISON: Green.....R. F. ....Hill Cunningham.....L. F. ....Johnson Hennings.....C. ....O'Connell Langdon.....H. G. ....Harris Booth.....L. G. ....Elliott Field goals—Hennings 9; Langdon 4; Green 3; Cunningham 2; O'Connell 2; Johnson 1. Referee—Carlo.

## GREYS THREATENING CARDINALS' TITLE

Cardinals Must Win at Least One Game Thursday Evening or They Will Be Tied by Greys.

When the Greys won three games from the Maroons last night at Rockwell's alley, they raised their standing so far that should the Cardinals be defeated in three games by the Browns Thursday evening, they and the Greys will be tied for first place in the league. As the Browns are not very strong at present holding fifth place, the Cardinals are not in doubt but that they can win at least one game which will put them ahead and make them officially champions of the city. Thursday's match is the last one of the present tournament and the standings at that time will be the ones which will go on record for this year.

It will be impossible for any of the other teams to be defeated by the Maroons now as they are definitely at the foot of the list and the Browns have an excellent chance of coming next in order.

In last evening's contest the Maroons bowled very good scores but were defeated by the Greys notwithstanding. Lockett of the Maroons rolled high scores, making 199 and the team bowled a total of 2136 during the three games. At no time was there a difference of as much as a hundred points in the scores and the Maroons made a good showing despite their reputation of getting the small end of things.

Tonight the Blues and Reds will meet at the alleys and the latter will try to catch up and pass their rivals for third place. The scores last night and the present standing of the teams are as follows:

MAROONS

## BELOIT PLAYERS WIN FORTY-FIVE CONTEST

Inter-City Contest Between Janesville and Beloit Knights of Columbus.

For the past two years the Beloit and Janesville Knights of Columbus have held inter-city forty-five contests. Last Sunday the Beloit contingent came to Janesville, twelve men strong and carried off the honors of the afternoon. The previous game had resulted in a tie of 74 to 74. Sunday's game however went to the Line City players by a score of 74 to 68. Beloit is now six games to the good. The two teams will meet three times more and the losing team will buy the winners a supper.

## MAUD POWELL GAVE CHARMING RECITAL

Wonderful Artist Delighted Audience at the Myers Theatre Last Evening.

The people of Janesville have been most fortunate in the musical attractions that have been offered to them in the past few months. Rosalie Schumann, Beloit in song, Blomfield Schumann, Beloit in piano, stands Maude Powell for in private life, Mrs. H. Godfrey Turner, with her violin in the world of art and her concert given last evening at the Myers Opera house, under the auspices of the Apollo club, was one of unalloyed delight. There was no ostentation and Madame Powell resorted to no trickery to dazzle her hearers, but her program was made up of legitimate violin music so beautifully played as to elicit instant approval from all who heard her.

The first number, the Spanish Symphony, by the distinguished French composer, Lalo, gave Madame Powell opportunity, especially in the "Aurante" to show the wealth of tonal beauty, she is able to draw

from her instrument and to demonstrate that she has abundant temperament and absolute power, while the "Piano" with its intricate rhythm and design was played with a grace and ease that marked her the great artist. The next number was the "Piano" and "Variations" from Beethoven's Kreutzer Sonata. It was in writing to the wonderful world his colossal ignorance of music and its meaning. Anything more chaotic or purely, incoherent would be difficult to imagine. Miss Powell and Mr. Linchowsky played it with greatest nicety of expression and regard for values and balance.

Two minutes by Beethoven and Mozart followed. These were invested with a certain blithe serenity that made them wholly charming. Next came Schubert's well known "Ave Maria" marvelously played in 6ths and 8ths. The groups ended with one of the Hungarian dances by Brahms. An eminent Chicago critic said recently that those dances were the best Brahmsian of all the music Brahms wrote but they have a distinctly Hungarian flavor. After Miss Powell had gracefully responded to an encore Mr. Linchowsky played two piano solos. It certainly was unusual to place Chopin's prelude of tragic gloom in juxtaposition with the rollicking wedding song of Grieg, but they were well played especially the "love episode" in the latter so we will try and forgive the slight regard for rhythm that was shown in the "Autumn" of MacDowell's which was given in encore and this is the more easy when one considers the sympathetic and satisfactory accompaniments that Mr. Linchowsky played throughout the evening. The closing group was an enchanting Russian cradle song and Wladislaw's arrangement of Russian airs, dear to the heart of all music lovers. This was given with great verve and brilliancy and the audience enthusiastic and reluctant to leave the "Serenade" which Madame Powell introduced and has made famous was shown in encore. The magnificent Steinway grand piano was sent out from Milwaukee by the Edward Gram Co.

The Apollo club can surely claim one more gratifying success to add to its list.

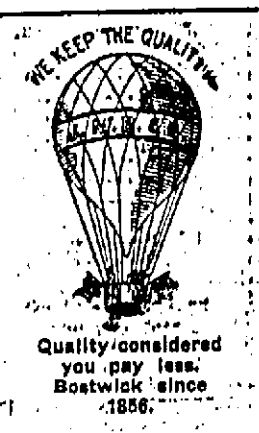

Delicacy Known to the Ancients. The raised meat pie, so dear to the heart of the Englishman, and the no less delicious deep pie, made in pastry-lined bowls, were well known to Apicius, and he even gives explicit instructions about leaving a hole in the upper crust through which the steam may escape.

### A NEW MONETARY SYSTEM.

Herbert McCall, De Witt of Denver has evolved a new scheme for a national circulating medium, which possesses the merit of originality, to say the least. The plan, which covers a dozen typewritten pages, is briefly summarized in the introductory pages. The scheme has been submitted to the United States Monetary Commission, and is now being sent out to the press of the country for commendation or criticism. Following is the summary. It is interesting reading but not likely to be seriously considered.

"On November 9th your sub-committee was in Denver, and at that time I called their attention, for their consideration, to a new money scheme; that is, free coinage, figuratively, of wheat, corn, cotton, wool, etc., or anything that is grown and has keeping qualities and is used in abundance, and can prove its case in a class with wheat, the idea being this: to have Uncle Sam build over the country at convenient places several large, fire-proof, cement granaries and warehouses, and act as custodian for the farmers, leasing to them, the same as he leases now for our gold, negotiable warehouse receipts.

"Take, as an instance, leasing a negotiable warehouse receipt for \$1.50 for every 100 pounds of wheat delivered at the elevator, and at the same time, saying to the farmer: 'Whenever you wish this wheat back, bring \$1.50 of these negotiable warehouse receipts, and the wheat is yours.' In other words, charge 10 per cent increase for the storage, etc."

The arguments advanced are too lengthy to reproduce but the above is an outline of the scheme which includes sugar or anything else which the soil produces of an unperishable nature.

Briefly stated, the government would become the middle man for farm products. It might take some time to discover all the holes in this kind of a skimmer, but some of them are apparent on the surface.

In the first place the government has never shown any great aptitude for business, and it would make poor shift in attempting to handle the grain and produce business.

There is no sentiment in trade, and the government as a buyer, in the open market, would be on a competitive basis. The farmer who sold his wheat at 90 cents a bushel, the equivalent of \$1.50 for 100 pounds, would never buy it back at 99 cents, or an advance of 10 per cent if he could do better in the open market.

The time may come when a better

single standard of value will be discovered than gold, but it is too far in the distance to cause the present generation anxiety.

### THE BUSINESS SITUATION.

Henry Cleva, the New York banker, thus sizes up the business situation: "General trade shows the slackness usual at the end of the year when business men are more engaged with closing accounts and stock taking than with consideration of new enterprises. This is also the period of the year when out-of-door work is largely suspended, which further tends to quietness in trade. Basic conditions, however, are sound and reasonably satisfactory and the tendency is toward ultimate improvement. The volume of trade, though somewhat less than a year ago, has not shown the contraction that was expected, and does not support the recent complaints of reaction.

"Conditions are not as bad as represented by those who have been disturbed or discouraged by one cause or another. The year just closing has been one of decided quiet. We have been taking the rest cure with benefit. But there has been no retrogression of consequence, only a general readjustment which will place the country in a much better position for a fresh forward movement than was the case a year ago.

"The annual report of the Department of Agriculture shows that our crops this year were valued at about \$8,400,000,000, or only about 3 per cent below last year. All the important crops were slightly smaller in quantity except cotton, but values realized in nearly every case were higher, so that the agricultural classes enjoyed liberal but not record-breaking prosperity.

"There is a shrinkage in the value of cotton of about \$100,000,000, but even at current low prices, the crop will yield a return to the planters much above the average, so that the South should experience a good year in spite of low prices. There was also a shrinkage in the value of animals and animal products of \$325,000,000.

"There is continued activity in the iron trade which, as stated some weeks ago in these columns, has turned a corner for the better. The demand has been so insistent for railroad equipment that former prices are already in sight. Much larger sales of pig iron are reported."

Postmaster General Hitchcock is happy because the government industry, over which he presides, shows a surplus of a few thousand dollars, accumulated largely through underpaid clerks, and by the adoption of drastic regulations, which has crushed ambition in the heart of many a loyal employee. If the official knew how little the people cared about his department making money, he might adopt a different policy.

The National Republican committee, composed largely of conservatives, is confronted with a serious proposition, and however much they may favor the re-nomination of Taft, they are forced to admit that his election would be extremely doubtful. Roosevelt looms up as the most available substitute and the only man who can save the party from defeat. From present indications he is likely to be the nominee.

### ON THE SPUR OF THE MOMENT

"The \$9,500 paid out by the relief committee to the cyclone sufferers, has been distributed among fifty-nine families, making an average of \$161 to each family. It has relieved much suffering and destitution, and has been thoroughly appreciated by the recipients.

A French physician of world-wide fame, maintaining that old age is a snare and delusion, and that the perpetual fountain of youth has been discovered through a serum which acts like magic.

### THANKSGIVING TIME.

Oh, let us all be thankful, light-hearted, glad and gay, because it gets us nothing to be the other way. Bill Taft has said we've got to, the Governor has too.

It really looks as though there is nothing else to do. So place a second mortgage upon your house and let

And go and buy a turkey with all the dough you've got. Do not so pessimistic. 'Tis no time for the house.

There's never any juncture when things could not be worse.

### ACCORDING TO UNCLE ABNER.

A feller either gets about sixteen pairs of slippers for Christmas or he doesn't get any. There should be a happy medium.

But then, the feller that gets shot by mistake for a deer has the satisfaction of knowing that he resembled a very graceful and handsome animal, if that is any consolation, which it is not.

The feller who goes to a dinner party to listen is never disappointed, but a feller who goes to a dinner party to eat, sometimes is.

I never saw a white horse that was with a darn for anything excepting hauling a barrel.

The milk-maids in musical comedy don't look much like the ones you see in real life around our township. The feller who gets up the costumes for 'em never lived on the farm.

A feller who is authority on every subject under the sun ain't very often read for much else.

The ones that grin and smile when they go to a party are the ones who are tryin' to bust into society.

Job may have gone through a good many ordeals and retained a cheerful disposition, but he never took the job of janitor of one of them 28 family steam heated apartment buildings.

What has become of the dudes who used to put their hair in the middle and brush it up into a curl on each side over their forefinger?

When you see a feller with green whiskers you can safely bet he has been monkeyin' with some hair dye which is guaranteed to keep 'em black forever.

There ain't nothing much more embarrassing than a photograph of a feller took with his graduation class.

### SOME THINGS WE HAVE NEVER SEEN.

"An automobile that was really running at its best.

A knowledgeable man who could get many dancing partners.

A book agent who didn't look as though he was cut out for the ministry.

A ten-cent glass cutter that would cut when you wanted it to.

A genuine diamond on the stage.

A society leader who hated to have her picture in the paper.

A barber who couldn't name every champion since Jim Maco.

### THE WHOLE MATTER SETTLED.

Ponder no longer upon what to get the loved ones for Christmas. Do not rack your brains and pace up and down the floor worrying over the advertisements. We have settled the whole matter for you by arranging the following list. Each item is guaranteed to give satisfaction and all you have to do is to go and buy them and hang them on the Christmas tree. Following is our approved list upon which we stake the remnants of our reputation as a picker:

For wife—An electric ironing board.

For daughter—A baby grand piano.

For son John—A diamond ring.

For uncle Peter—A seven-passenger touring car.

For aunt Matilda—A sealskin coat.

For father—A block of Standard Oil stock.

For mother—A piano.

For son Willie—A Wright biplane.

For baby—100 shares of United stock.

For the janitor—A house and lot.

For the maid—A watch and chain.

These suggestions are offered absolutely free of charge. All you have to do now is to get the presents the same way.

### OUR OPTIMIST'S CONTENT.

An optimist is one who can feel the best suspension button gives way and then congratulate himself over the fact that he has got a frock coat on.

One who knows.

An optimist is a man who can look forward with joyful anticipations to attending a pupil's recital given under the auspices of a singing teacher.

Pluribus Unum.

An optimist is a feller that fits eye glasses and nose glasses to a feller.

Bob.

An optimist is a man who invites a life insurance agent to dinner with him, or a book agent either.—Veritas.

### Self-Respect.

It is good to foster anything that breeds self-respect. It is not conceit, which is vanity, but rather a respect for the divinity of man.

## Heart to Heart Talks.

By EDWIN A. NYE.

### LIVING WITH PEOPLE.

It is quite an art successfully to live with people.

Living with people is life's great school, in which we learn our best lessons.

It is not good to live alone. He who withdraws himself from his fellows in order to do as he pleases does himself a great injury. He makes himself a selfish, conceited and therefore unhappy being.

But— To live with people requires adjustment. If you cannot bring people around to your point of view adjust yourself to theirs. If the mountain will not come to the prophet, the prophet, perforce, must go to the mountain.

Now need you give up your way of thinking. Keep your own opinions, but try to adjust your tastes to those with whom you must live.

It is not easy. It means bruises, injustice, even heartache, and it requires a big lot of patience and self-restraint. Adjust yourself.

Lay your emphasis upon the things you have in common with other people. Avoid sharp differences. Minimize a disposition to harmonize things. Cowardly?

Not at all. If you are not too opinionated and will take the time to look for them, you will find that every living soul, even the crookedest or most crabbed, has somewhere concealed qualities that are worth while.

Above all, don't be sensitive. Look for slights and wounds and you will find them. Do not take offense easily. Life is too short to get mad at every turn of the road.

You need the discipline. If you are to live with people and get along with them you must have your sharp corners rubbed off by contact and impact. Don't expect to roll along without some time having your fire, even the inner tubes, punctured.

Finally, if, after a fair trial of courtesy and patience and endurance, you cannot get along with certain people, let them alone. This is a fine big world, with plenty of elbow room. Don't do not be in a hurry to cut people off your list.

Remember that you yourself are not entirely perfect.

### The Usual Program.

"So you had a nice time in Plunk-ville?"

"Oh, very. They showed me the glushings, the jill and the fine new insane asylum. They certainly made my visit as pleasant as possible."—Louisville Courier-Journal.

### Wishes.

Anger wishes that all mankind had only one neck; love, that it had only one heart; grief, two tear glands; and pride, two bent knees.—Jean Paul Friedrich Richter.

### Autolst Thrown In a Tree.

When an automobile slid off a telegraph post at Thorford, Norfolk, England, a few days ago and turned a complete somersault, one of the occupants had an extraordinary experience, being flung high into a tree, from a bough of which he hung suspended by his clothes until rescued by a motorcyclist.

### For the Invalid.

When additional bed covering may be required, by an invalid during the night, a long piece of cord to the edge of a blanket laid at the foot of the bed and attach the other end to the head of the bed. All that is necessary for the invalid to do is to pull lightly on the cord, when up will come the cover.

### Virtue of Skunk Oil.

Wonderful virtues are ascribed to skunk oil by those in the mountains. Trappers use it to conceal all odor of man from fox or lynx or other animal wary of traps. In case of croup, or any bronchial or lung trouble, it rubs in quickly. With physicians at times many miles away, a bottle of skunk oil is always present in a mountaineer's family.

## JANESVILLE MAY BE A COMMISSION CITY?

SIGNATURES CALLING FOR A SPECIAL ELECTION READILY OBTAINED.

## ENTHUSIASM IS SHOWN

Question Certain To Be Voted Upon Early in "The Coming Year"

From Present Outlook.

If anyone has doubts that the question of rule by commission is not a subject of burning interest, just at present, among Janesville business men let them sleep it quickly. There is more interest shown in this subject at present than ever before. It is the topic of conversation at every gathering, in every cigar store and other place where voters congregate.

Consensus of opinion appears to be that when put to a vote it will be passed by a good majority. That, however, remains to be seen for the public is a fickle jade, but at present it is certain it will be voted on shortly after Christmas, either in January or February. There are many friends of the proposed change of city government who are working hard for it and their efforts will count.

F. P. Pierson and John Peters have been the passing of the petitions calling upon the Mayor to issue a call for a special election within sixty days after filing. It is probable that there will be enough signatures obtained within the next few days to file the petition shortly which will mean that the full sixty days will be taken before the election time for the March primaries which would mean the April election would perhaps be on the election of commissioners.

## GIRL SENT TO JAIL ON VAGRANCY CHARGE

Ruth Gordon, Who Claims Her Home is in Bloomington, Ill., Arrested Yesterday Afternoon.

Ruth Gordon, a young woman who claims Bloomington, Ill., as her home, pleaded guilty before Judge Field this morning to a charge of vagrancy, and was sentenced to ten days' imprisonment in the county jail. She was arrested late yesterday afternoon with three young men in an old house at the corner of North Bluff street and St. Mary's avenue.

People passing by the hut saw the three young men and the girl in the place and made complaint to the police. When the police arrived on the scene they found two sitting beside the stove and in the center of the room lay a large old mattress. When pulled away this disclosed a hole in the floor through which the girl and one of the young men had gone into the cellar.

On her arrest the girl said her name was Mabel Jones but later said it was Ruth Gordon. This was the name she had signed on the register of the Empire Hotel when she arrived here last Saturday. She claims that she is nineteen years old and married, and that her parents are dead. She came here from Rockford, on the interior boat.

Earl Wheelock, one of the young men found with her, is out on parole from the Wisconsin Industrial School, Chief of Police Appleby notified the officers of the school of his misbehavior and was informed that someone would be sent to bring him back.

## PLEADS FOR SUPPORT OF VISITING NURSE

Dr. Maud Williams Tells Council of Serious Local Conditions Which Call for Correction.

Mrs. Williams, who is the city of the services of a visiting nurse, and for a complete and thorough medical examination of all the school children of the city, were made by Dr. Maud Williams, of the Wisconsin Anti-Tuberculosis League, last night before the common council, after the business of the evening had been completed. To convince her hearers of the need of such action she gave them a description of the conditions she found here and related how a visiting nurse and medical inspection would be effective in improving them.

Although the death rate of Janesville is comparatively low, there have been nine deaths from tuberculosis since last May, and as nearly as can be ascertained, there are now thirty cases of the disease in the city. Several had made application for admission to the Walter sanatorium, but could not be entered because they were advanced cases. A number of them were a danger to the household. Although they were doing the best they knew, in one family on Pearl street, a young lady in the last stages of tuberculosis and two young men had ineffectual cases. Many of the patients were in the patent medicine stage—consuming doses of bottles of entirely worthless remedies. The doctor gave the analysis of one the found, disclosing that it was mostly water and contained about five cents worth of drugs. One patient was trying the blister treatment.

There was a deplorable laxity in the city in the matter of reporting contagious diseases. At the present time there are a number of chicken pox cases among the school children. An appalling number of them had adopted a disorder which predisposes to consumption, as it encourages mouth breathing.

In response to an inquiry of what could be done by the city toward providing a visiting nurse, City Attorney Maxwell said that the city could create the office of assistant health officer and appoint the visiting nurse of it, determining the salary as it might fit. Dr. Williams asked if it might not be possible to pass an ordinance at last meeting authorizing a nurse here as soon as possible and have no time, but as the drawing up of such a measure would take some

## JUDGE GRIMM MAKES IMPORTANT RULING

DECIDES MONROE CASE RELATIVE TO PAYMENT OF LICENSE BY WANDERING MERCHANT.

## DEFINES STATE LAW

While Statute Gives City Right To Charge \$25 Per Day Fee, Such Sum In Small Cities Is Exorbitant.

Judge Grimm has decided an important case relative to what may be charged by a city for the daily fee for transient merchants who go into a small city with a stock of goods and remain but a few weeks, selling at bargain sales and then move away. It is important as it has a bearing upon all cities in the state of the second and third class.

David Endelman is a clothing merchant, having, as he says, a permanent store at Rockford, Illinois, and likewise some stocks which he takes transiently in cities of his choosing. Early this year he came to Wisconsin and paid into the coffers of the state an amount necessary to qualify him to do business as a transient merchant within its borders. When he received a state license Mr. Endelman knew that under the law each municipality has the right to and usually does fix a license fee to be paid each day by transitory traders. He selected the city of Monroe as a good point, and rented a store and moved a stock of goods there. After advertising, he made ready to host his bargain by opening the doors of his store and inviting the public to enter. At this juncture he was visited by the city marshal, who inquired if Mr. Endelman had a state license. The merchant answered in the affirmative, and displayed his license. Then the official informed the merchant that he must have a license from the city of Monroe, which would cost him \$25.00 for each day that he did business as a transient merchant there. Mr. Endelman, dumfounded at the amount of the fee, and intimated that he did not intend paying the salaries of the city officials and the other expenses of the city government during his stay in the city. He tried to get the license fee lowered, but the officials were obdurate. Then Mr. Endelman said he would pay the fee under protest, and do business for a few days, to ascertain whether or not he could afford it. He finally concluded he could not, and sold one day without paying the fee. He was promptly arrested for the violation of the ordinance requiring the payment of the license fee. He demanded a trial. A. S. Douglass, the city attorney, and W. H. McGrath, the district attorney, represented the city, and J. L. Sherron of Monroe, and Thos. S. Nolan of Janesville, appeared for Mr. Endelman. His attorneys attacked the validity of the ordinance, claiming that it was unreasonable and prohibitory, and that no more should be charged for such license than the expense of issuing it and the cost of police supervision. It seems that the state law authorizes the imposition of a license fee not to exceed \$25.00 a day for each day a transient merchant may be engaged in his business. Mr. Endelman's attorneys contended that a license fee of \$25.00 per day might be reasonable

in a city the size of Milwaukee, but unreasonable in a town the size of Monroe. Mr. Endelman testified that for four days his average daily sales in Monroe amounted to about \$88.00; that his expenses were usually \$7.00 each day; that his profits on the sales would not exceed 20 per cent, and that he would lose several dollars each day if he paid the license fee. He was found guilty, however, and fined \$50.00 and costs. He was committed to the county jail. He was released before night the same day, by County Judge Becker, on a writ of habeas corpus, on the ground that a commitment was improper; that a daily execution should have been issued, and if the amount of the judgment could not be made from the property of the defendant, his body should then be taken. Mr. Endelman appealed from the judgment taken against him, to the circuit court of Green county, where the case was recently tried before the court.

Judge Grimm has just rendered his decision. He decided that under the facts and circumstances in the case the amount of the per diem fees as fixed by the ordinance is not a reasonable exercise of the power granted by the laws of the state, for the very plain reason, if for no other, that it is exorbitant and prohibitory. He stated further that the power to license is not meant power to prohibit by means of an excessive and exorbitant license fee, except when applied to occupations dangerous to public health, morals or the general welfare; that a license fee upon any occupation of ordinary commerce must not be such as to, under the attending circumstances, make it impossible for one to engage therein without certain loss, otherwise the exaction of the fee would operate in restraint of trade; that none are better able to judge local conditions than the constituted authorities of cities and villages, and for that reason the legislature contented itself with fixing the maximum sum that might be required under the most favorable circumstances, leaving the determination of what was a reasonable sum in each particular locality to the sound discretion of the local authorities under the salutary restrictions of the well-known rule of law that the courts can be appealed to in all cases where it is claimed that such discretion has been wilfully or ignorantly abused; that the purpose of the license fee is not to protect the local merchant against ruinous competition, although it may operate in a measure to bring about that result, but to compel him who appropriates the benefits of organized city government to pay his just proportion toward maintaining it; that the fee cannot be imposed for the purpose of general revenue, nor for the purpose of protecting local merchants from competition; hence the fee must be reasonable and not so large as to be prohibitory. He also decided that the only power which a city can exercise in such a matter is to determine by ordinance or resolution the per diem fee which a transient merchant is to pay, leaving the enforcement of the payment and penalty in case of non-payment, as provided by the statute. He held the ordinance valid.

Judge Grimm's decision is in line with the rule adopted by our supreme court, to the effect that ordinances must be reasonable. The attorneys for Mr. Endelman cited cases from practically every state in the union, showing that license fees exacted by municipalities from transient merchants, peddlers and the like, must be reasonable and fixed, as a rule, upon a basis of what it will cost to issue such a license, and the expense on-

talled by extra police supervision. Many cities have placed such a fee at an amount that would tend to bar transient merchants or peddlers, but invariably where the ordinance prescribing such a fee has come before the courts, it has been held void. The license fee prescribed by ordinance in the city of Janesville for transient merchants, is \$10.00 per day. It is understood, however, that a compromise is generally made with those who seem to give value received, and conduct business in a legitimate way. Such people usually pay about \$5.00 per day.

## NEW CENTURY CLUB HELD MEETING LAST NIGHT.

Entertained at Dinner at Home of Dr. And Mrs. Shearer at Edgerton—Other Edgerton News.

[SPECIAL TO THE GAZETTE.]

Edgerton, Dec. 12.—The New Century Club met last night at the residence of Dr. and Mrs. Shearer and the rest of the program was an elaborate 6:30 dinner. Following the spread a unique program was carried out. The room's decorations were most tastefully arranged and the twenty five guests present enjoyed a most pleasant evening.

Edgerton Locals. C. A. Fritzke left this morning on a business trip to Jefferson and Johnson's Creek. Miss Helen Coon and Roscoe McIntosh were in Beloit over Sunday. Saturday night they attended a fraternity party.

Miss Mae Pyro spent the day yesterday in Madison. Chief of Police C. W. Dunn is minus of his badge tonight, black and tan in color, the dog having been gone astray for several days.

The stock firm of J. L. Emery & Son yesterday shipped from this station a registered Jersey yearling bull to Ed. Horryman at Dodgeville.

Attorney G. W. Blanchard, for the past two years business manager of the Monarch Laboratory of this city, having just been admitted to the bar, is now associated with the real estate firm of North & Wentworth and will attend to all legal business.

Miss Theo. North, daughter of Mr. and Mrs. D. W. North, who is attending the Lawrence university at Appleton, arrived home Sunday and went to Janesville yesterday, where she will submit to an operation for appendicitis today. Mr. and Mrs. North went to Janesville this morning to be present at the operation. P. A. Millington was in Stoughton, yesterday making arrangements for the opening of an additional tobacco warehouse in that city which will be occupied by the firm of Monopole & Bros., making four warehouses which its firm will run in this state this season.

## FOR ARTICLES ONLY IN NATURAL STATE

Is Classification Made by Attorney General of Articles Which May Be Sold by Numerical Count.

"Numerical count" as used in the Wisconsin weights and measures law passed by the last legislature, is limited to apply only to articles in their natural state, such as apples, eggs, etc., according to an opinion from the office of Attorney General Banerott. The law provides that "all dry commodities not otherwise specified in this section shall be bought and sold only by standard dry measure, standard weight or numerical count, except when parties otherwise agree in writing."

Butter, put up in cartons containing not more than fifteen ounces, sometimes not more than fourteen ounces, is found by department officials, as is lard put up in pails; candy also is similarly manipulated, one or more ounces short of a pound. Whether these packages of butter, pails of lard, boxes of candy offered for sale are in compliance with the "numerical count" feature of the law is the question and the attorney general's opinion holds that they are not.

"The evident intent of the law," says the attorney general, "was to secure to the consumer the full amount of any commodity for which he supposes he is paying. An opinion is held in which it is held that means, wrapped in many thicknesses of paper, cheese cloth, etc., should be sold at the net weight of the meat."

An interesting aspect of this construction of the law is that merchants may no longer sell soap at six bars for a quarter or other stated number of bars for a given sum, for soap is not a natural product as interpreted in the opinion of the attorney general.

So It Is Alleged. After you have complimented a woman on her youthful appearance and her beauty and praised her children it doesn't make much difference what you say about her husband.

## AN ALARM AT NIGHT

That strikes terror to the entire household is the loud, hoarse and metallic cough of croup. No mistaking it, and fortunate then the lucky parents who keep Foley's Honey and Tar Compound on hand. ## RUSK LYCEUM ELECTED OFFICERS LAST NIGHT.

Lewis French Chosen President at Regular Meeting of High School Literary Society.

At the regular meeting of the Rusk Lyceum held last evening at the high school building officers were elected as follows:

Lewis French, president; Willie Sutherland, vice-president; Allison Burdick, secretary; Leslie Bailey, treasurer; Thomas Foulkes, chairman of standing committee; Alvin Dearborn, Bruce Jeffers, Harold Laughlin and Alvin Krontz, other members of standing committee.

Fitting Procedure. If you want money, go to strangers; if you want advice, go to friends; if you want nothing, go to relations.—Lippincott's.

Sew Out of Sight of the Sea. The Eskimo women of Alaska never sew while the men are fishing, and should any mending be imperative they do it shut up in little tents out of sight of the sea.

## "BEST ON EARTH"

This is the verdict of Dr. J. H. Howell, Tracy, O., who bought Foley's Honey and Tar Compound for his wife. "Her case was the worst I have ever seen, and looked like a sure case of consumption. Her lungs were sore and she coughed almost incessantly and her voice was hoarse and weak. Foley's Honey and Tar Compound brought relief at once and less than three bottles effected a complete cure." Without opiates or harmful drugs of any kind Foley's Honey and Tar Compound stops coughs and cures colds. Do not accept any substitute. Badger Drug Co.

## Get At the Cause Quick NORMAL SPINE

The Chiropractor does not ask forty different questions to find out what is the matter with your Stomach, or if you have Stomach Trouble. The average M. D. expert Specialist and Surgeon will put all sorts of questions to you and will go at you something like this:—"Do you have pain in your stomach? Loss of appetite? Dyspepsia? Indigestion? Bad taste or breath? Sick headache? Bloating? Heartburn? Sour Stomach? Belching? Spitting? Catarrh? Gas? Gnawing? Nervousness? Constipation?" Now what more would the doctor want to know to decide that you had Stomach Trouble? Anyone could tell they had Stomach Trouble, if they knew they had all this, but still people will wonder how the Great Specialist can tell that a person has Stomach Trouble. Why, in a roundabout way, HE HAS ASKED YOU ALL ABOUT YOUR STOMACH AND YOU HAVE TOLD HIM YOURSELF WHAT YOUR TROUBLES ARE. NOW NOTICE THE DIFFERENCE IN THE CHIROPRACTORS—WE NEVER ASK SYMPTOMS. The Chiropractors locate the cause of your trouble in your spine. Each vertebra is separated by a cartilage, between the vertebrae a nerve passes. The Cartilage becoming crushed through accident, fall, heavy lifting, etc., it may have happened to you some years ago, but is bound to show up sooner or later and then you get your pain and trouble. We remove the cause of nerve pressure and Nature will then restore you.

Illustration No. 1.—You will notice that the 9th and 10th Dorsal Vertebrae are out of line with the other ones. These are throwing a pressure on the nerves leading to the Stomach and shutting off the mental current which is Life, from the Brain to the Stomach and the result is you have Stomach Trouble. All you need to do is to go to the Chiropractors—they understand how to adjust the subluxation of the spine. It is the height of folly to continue in pain when there are Chiropractors in your home town. You who are sick and discouraged, did you read our Chiropractic Illustrated talk in this paper, page 10, last Saturday. If not, write for our FREE booklet. It means much to you. ### All Suits at Half Prices

There is this about our half price sale: It IS a half price sale. There has been no change of former prices in order to meet the reductions half way. Prices were lower for the same quality and high class styles than could be found elsewhere in Southern Wisconsin. Now they are exactly half. The straight line, effect skirts, the short, jaunty coats, the severely plain tailored effects are all among the showing.

# THE OPPORTUNITY TIME OF CAMPAIGN NOW IN FORCE

## Candidates Should Read Following Information Regarding Use of Coupon and Second Payments

Candidates should state on the stubs sent in whether the subscription is old or new, also be sure that the money sent corresponds with the amount called for on the stub.

Due to the large number of subscriptions received, Saturday of last week, some delay may be caused in sending out all ballots promptly. The ballots are being made out as rapidly as possible and each candidate will receive all vote ballots at the earliest possible date.

This great automobile campaign closes in just eleven days (December 23 the date) and the work done between now and December 23 will deal directly in the awarding of one of the elegant prizes to you.

Each candidate should make the coupon, now appearing, do the work. Each coupon sent in with a subscription, to be delivered by carrier boy, will call for twice the number of votes as the subscription it accompanies. Each coupon sent in with a subscription to be delivered by mail will call for double the amount of the subscription it accompanies. The coupon may be used on either old or new subscriptions.

### Use of Coupon

Candidates may send them in, in their own favor or any person can use the coupon in favor of a candidate. Clip out a coupon and locate a subscription to go with it. Send the coupon in with the subscription and the ballot you receive on the subscription will also contain the votes due on the coupon. To explain it: A new yearly by mail at \$3 calls for 4800 votes according to the regular scale now in force. A coupon sent in with this new yearly would call for double the amount of the subscription or 9,600. These two amounts (4,800 due on the \$3 subscription by mail and 9,600 the amount due on the coupon) total to 14,400 votes. This amount will be credited on the one ballot.

Beary in mind the fact that the coupon can be used on every subscription sent in between now and December 23rd inclusive. The subscriptions may be old or new; by mail or by carrier boy.

In attaching a coupon to a receipt stub of the subscription be sure the coupon contains your name as the candidate, also the name of the subscriber. Should you not understand the use of the coupon write the campaign manager.

Remember no coupon will count unless accompanied by a subscription, also a coupon should accompany each subscription sent in.

If a coupon is not sent, the candidate will receive only the amount due on the subscription.

### About Second Payments.

One point that the management feels should be made clear to all candidates is the manner of leaving votes upon second payments to The Gazette by one person and candidates are requested to note carefully the following: For example: When a person has paid for one yearly subscription to The Gazette during the campaign and decides to subscribe for another year, the votes already upon the payment of the second subscription will amount to the difference between the number of votes given at the time of the first payment and the total amount which would have been given had the subscriber turned in a 2 years subscription in the beginning.

For instance: If a man subscribed for the paper one year under the first scale of votes, votes would have been issued upon the payment of that subscription to the amount of 4,800 new, by mail. Should he decide to take out another year's subscription at this time votes would be issued to the amount of the difference between the 4,800 to which he was entitled upon the first payment, and the amount to which he would be entitled by the payment of a two year's subscription at that time—18,000, or 13,200 votes. Then using a coupon will make this payment total 30,000 votes.

Always give the date of the first payment when handling in a second payment, as that governs the amount of votes due. The scale in force when the first payment was turned in governs the scale used on the second payment.

When sending a second payment be sure to mark on stub, second payment and the number of votes received on the first payment.

Candidates will do well at this time to induce subscribers who have purchased a subscription for one year earlier in the campaign to subscribe for a second year, thereby securing the same number of votes that would have been secured, had the subscription been for two years the first time it was turned in.

You will, mail or carrier boy receive the difference of votes on old subscriptions as well as new, under this same process. The coupon may also be used on second payments turned in now as well as first payments turned in now.

## FIND CLINTON DOG VICTIM OF RABIES

Dog Owned by Eric Johns Afflicted With Disease When Head Was Examined at Madison.

(SPECIAL TO THE GAZETTE.)

Clinton, Wis., Dec. 12.—Last Friday Clinton had a mad dog scare on School street. The dog owned by Eric Johns early in the morning showed symptoms of not being natural and kept getting worse and acted like a crazy beast. Finally Doctor B. H. Under was called and shot the dog and sent its head to Madison and yesterday afternoon word was received that the dog was afflicted with rabies. Mrs. Leo Pys warned the children coming home from school of their danger, while the dog was running around. She also called up the teachers at the school and told them a dog supposed to be mad was in the school yard. Not as much credence was given the opinion at the time the dog was shot that it was mad but since the report from Madison, people who have children are insisting that all the dogs which were with the mad dog be killed.

The 20th Century club met last evening with Mrs. William Penn Wolfson on Durant Street an interesting program was given. The next meeting will not be until Jan 8 and will be a privileged night.

Doctor W. O. Thomas, sister who has been very sick for several days died last night at her home near Sheridan, Ill. She leaves three children besides her husband.

Robert J. Bowen spent Sunday at his home at Brodhead.

Mrs. Floyd M. Harris and daughter Virginia were in Beloit yesterday.

C. P. Drake had a force of men made the beautiful siding of Mr. May at work covering the roof from which the tin was blown off Sunday. It was necessary on account of the danger from rain to leak a temporary roofing until the tin can be replaced. It is considered fortunate that a heavy rain did not come with the wind as the damage to the stores behind would have been extremely heavy.

The concert at the Baptist church Friday evening by the Four Artists company, the second under the Lyceum course, was very fine. They were certainly well named. The Four Artists. It is a large enough for the Auditorium large enough for the singing which would have been much more enjoyable.

The congregational people Sunday morning and the Union meeting at Baptist church Sunday evening were favored with solos by Mr. Charles Patchen which were enjoyed immensely. It is a rare treat to hear this gifted tenor voice.

## ALL BUTTER QUOTED A CENT LESS TODAY

Markets Flooded With Fancy Christ-  
mas Goods and Staples are in  
Fine Condition, With Few  
Changes.

Butter went down a cent yesterday  
upon the vote of the Elgin board al-  
though it was suggested first to keep  
it at 30 cents. In the city it is selling  
at 40c to 41c a pound, with dairy but-  
ter at 36c and 38c, in small quantities.  
New tangerines are now on the mar-  
ket at 45c a dozen and while they are  
a little green yet, they are large and  
in fine condition. Christmas greens  
are here nearly two weeks before time  
and despite the reports for New York  
there is a fairly good supply on hand  
at present of very nice trees and well  
made wreaths.

Different varieties of New York ap-  
ples make their appearance on the  
market every day until at present  
there are as many as fifteen separate  
brands for sale. Most of them are  
showing up well and though a few  
are not in as good condition as they  
were earlier in the season, there are  
plenty of excellent apples to satisfy  
any taste.

Today's markets are very similar to  
yesterday's, there being very little  
change noticed and they summarize  
as follows:

**Vegetables.**  
Carrots—2c. lb.  
Parsnips—2c. lb.  
Potatoes—50c. doz.  
Spanish Onions—7c. lb.  
Sweet Potatoes—5c. lb.  
Cauliflower—10c. doz.  
Green Peppers—5c. each.  
Pine Pumpkins—5c. doz.  
Squash—5c. doz.  
Green String Beans—10c. lb.  
String Beans—10c. lb.  
Yellow and White Onions—4c. lb.  
Red Onions—4c. lb.  
Cabbage—7c. a head.  
Lettuce—5c. bunch.  
Head Lettuce—10c.  
Dwarf Celeriac—20c. bunch.  
Vegetable Oysters—5c. lb.  
Mushrooms—4c. lb.  
White Turnips—1 1/2c. doz.  
Radishes—5c. bunch.  
Beets—1 1/2c. lb., 20c. pk. bunch 7c.  
Tomatoes—15c. lb.

**Slicing Cucumbers—20c. doz.**

**The Jealousy of Friends.**  
Our very best friends have a the-  
atre of jealousy even in their friend-  
ship; and when they hear us praised  
by others, will ascribe it to sinister  
and interested motives if they can.—  
C. C. Colton.

**Accounted For.**  
It's hard to tell what becomes of the  
plus, but a little girl up north has just  
coughed up a shoe button.—Atlanta  
Journal.

**Electrical Air Filters.**  
Electric air filtration is the idea of  
an English engineer, and is based on  
the discovery that a body positively  
electrified by 100 volts or more will  
become covered with soot in a single  
day in a smoky atmosphere, while a  
negatively charged body remains  
clean. Inserting a sheet of wire gauze  
in the intake flue of a ventilating sys-  
tem and electrifying it by connecting  
to a 250-volt supply main, the gauze  
extracts a large quantity of soot from  
the air.

**Two Things Worth Remembering.**  
Learn these two things: Never be  
discouraged because good things get  
on so slowly here, and never fail daily  
to do that good which lies next to your  
hand.—George MacDonald.

HEART AND HOME TALKS  
BY BARBARA BOYD

## Among the Christmas Crowds.

I CAN'T think of a single thing to give her."  
"I have looked everywhere for that kind of footstool, and I am nearly dead."  
"Yes, the cook has the measles. Isn't it awful!"  
"He has everything he wants. What can you get a man like that?"  
"Her pocket was picked. Twenty-five dollars! Just think of the presents you could get with that."  
"Did you ever see such crowds? You can't get within a mile of a counter."

"Fall down stairs and sprained her ankle. And a lot of company coming."  
"She has a baby. That's a Christmas present, isn't it?"  
"I can't find a thing I want. Whatever am I going to do?"  
"Yes. Her husband just died. Poor woman!"  
"Somebody stepped on my corn. It's nearly killing me."  
"Seventy-two people on my gift-list. What do you think of that?"  
"They've sold every one, and no more to be had. I'm in despair."  
"I'm going home and going to bed. I haven't had anything since I started this morning, but a cup of hot chocolate. It takes ages to get waited on in a restaurant."

"Isn't it awful the way people shove?"  
"Yes. They're engaged. It's just announced. I don't see what he sees in her."  
"It's perfectly flonidish the prices asked for things. I'll be bankrupt."  
"Did you see a package, I left here? I laid it down when I was looking at that bag. What shall I do? It's Jim's present."  
"Oh! See that dolly? Will Mrs. Kringle bring a dolly like that?"  
"I always get people the things I want myself."

They are epitomes of human nature, the shops these days. Just wander through them, and listen, and you'll hear the whole gamut of the world's joys and sorrows.  
For each of us is unconsciously showing ourselves in this gift-giving. The generous long to give all. They'll decide silently they can do without this or that, themselves, in order to have more to give to others. The selfish give as little as possible. They subtract from each gift to add to something for themselves. The calculating plan carefully to give a fair return for what they received last year. The improvident wish they hadn't been so wasteful, that they might have more now. The poor look with longing eyes, the rich with weary ones; the one has nothing, the other, all. Inexperienced men shoppers take what shrewd saleswomen thrust upon them, and go away, feeling helplessly that they haven't what they want but can't remedy it.

It's the world in little. At no time, do we get quite so much of it compressed into small space. There is humor and there is pathos. There is much to learn of our brotherman. We can go away from the study, with broader sympathy and a deeper insight into this queer human nature of ours.

Barbara Boyd

The Evening Chit-Chat  
BY RUTH CAMERON

ONE of the most pathetic figures at Christmas time to me, is the child who has nothing to give.  
We are always having our sympathies appealed to, for the child who has little or nothing given to it at Christmas, but who ever says anything about the youngster who has little or nothing to give?  
And yet isn't he also deserving of sympathy?  
Don't you get as much pleasure out of what you give at Christmas, as what you receive?

More? I thought so. Very well then. Aren't you denying a child a great deal when you fail to make it possible for him to give, as well as to receive at Christmas time?

I believe that every parent's Christmas duty is to make it possible for his children to give at Christmas time. And mind you, I don't mean to make this possible by giving the children a few dollars outright "to buy your Christmas presents with." Even a very young child can appreciate the force of having father give him some money, with which he will later buy father a Christmas present. How much of the glorious gladness of giving is he likely to get under such circumstances—how much of the "it is more blessed to give than to receive" spirit?

No, every child should be given a chance, to EARN or SAVE his Christmas money. Of course, the child who has an allowance can save it from that, and I wish all children were included in this category. But unfortunately they are not.

What about the others, then? Well, in the name of the joy you yourself take in giving, for the sake of the unselfishness you hope to see your children develop, give them a chance to earn a little money somehow or other. Let them go without candy, cake, butter or some luxury from now until Christmas and give them an equivalent in money.

Reward them by an unexpected nickel, dime or quarter for some kind or thoughtful deed. Please observe that this is quite different from bribing them to be good—a practice of which I most heartily disapprove.

Invent errands and tasks if necessary. Offer the little daughter a quarter a week, if she will darn the stockings or wash all the dishes. Let the little son help you about the furnace.

It is easier to do this work yourself than to oversee them, you say. Perhaps so. And perhaps you can ill spare the extra two or three dollars that all this means. But remember, my friend, the cause for which you are giving it. If necessary try to save it from your own Christmas list. Even make son or daughter a little less expensive Christmas present.

Maybe you think I'm foolishly emphatic about all this, but I don't believe I am. I can remember that one of the happiest Christmases of my own childhood, was the year when by taking care of a neighbor's cat all summer, I earned enough to give each of my family a foolish makeshift gift, but something they really wanted. Christmas that year meant not merely opening my own gifts, but watching others open theirs from me, with a delighted anticipation of their pleasure.

Again, I heard a girl who had passed her first Christmas as a wage earner say: "It's splendid to be earning money and to be independent all the time, but Christmas is the best of all. To really have some money that you earned yourself and not have father and mother give you money to buy presents with—why it's glorious. I hardly knew what Christmas meant before."

To be always receiving and never giving is a bad position even for a child. If he receives is indifferently, he is developing selfishness. If he rebels against it, he suffers.

Once more in the name of the joy you yourself take in giving, for the sake of the unselfishness you want your children to develop, give them a chance to really give, as well as to receive this Christmas.

SOME DON'TS GIVEN  
FOR THE HOUSEWIVES

Paper Bag Cookery Proves Interesting to Many Ladies in the City.

So much interest was demonstrated in the free paper bag cookery as exemplified Thursday and Friday and Saturday of last week at the Gazette house, the following don'ts for the users of this new method may not come amiss. They have been compiled by a well known authority on such matters and to those who are trying experiments with the cooking bags they will be most useful.

1.—Don't forget to examine each bag carefully before using, and if any possible rent, tear or tendency to become unfastened is discovered to repair the defect with white or egg or a little paste made with flour and water.

2.—Don't omit to brush over the inside of each bag with clarified butter, clarified dripping, lard, or good olive oil.  
3.—Don't fail to cut, saw off or trim all projecting sharp bones, fins or pointed skewers, such as are likely to pierce the paper bag.  
4.—Don't forget when once the food has been placed in the proper sized bag, to fold at least twice the opening of the bag, and fasten with wire clips; to turn down both corners, and secure also with wire clip.  
5.—Don't put the loaded bag on a place grid, trivet, or shelf in the oven; place it on a cold grid or on the hot oven itself.  
6.—Don't forget to remove the top portion of the paper bag a few minutes before the meat is done when a joint or bird is required to be nicely browned.  
7.—Don't forget to ascertain the correct heat of the oven before putting in the food.

8.—Don't place a paper bag in too hot an oven, or, in the case of a gas oven, too near the gas jets, so as to cause the paper to scorch or burn.

9.—Don't attempt to economize when once the bag is scorched; remove it at once and put the food in a fresh bag.

10.—Don't forget to use a wire trivet or grid to support the bag in every case whether the oven shelf be of the "solid" or "open bar" variety, whether the cooking be done by gas, coal, oil, or electricity.

11.—Don't omit when baking pastry to punch or pierce a few small holes here and there in the end of the bag with a skewer or small fork; this will insure the pastry acquiring a golden brown.

12.—Don't spill otherwise waste any liquor or gravy poured in the bag in which certain kinds of food are cooked; it is valuable and should be made use of.

13.—Don't forget to dish up all food neatly; put the whole bag as it leaves the oven on a large dish, cut or break away the paper and place the food on a dish.

## The KITCHEN CABINET

EMPLOYMENT, employment. Oh, that is enjoyable. There's nothing like something to do, good heart occupation, strength and salvation, a secret that's known to but few.

## SOME HOMELY DISHES.

The common things and the common people are those we have the most of, and so we need to be reminded that it is just as necessary that the common foods, because so important, making the bulk of our living, should be well prepared.

Rice, which is such a cheap food, and forms the chief article of food of a large portion of the population of the world, may be cooked and served in hundreds of ways.

Round Steak With Rice.—Cut one and a half pounds of steak into two or three-inch squares; put into a saucepan to steam without water. Slice an onion and fry in a little suet, add to the steak and season with salt and pepper. Cut up a tomato and add with water to the meat, enough to cover the meat. Let simmer for two hours, then add a half cup of rice and more water if needed, and cook until the rice is tender.

Mutton With Rice.—Wipe with a damp cloth a pound and a half of meat cut from the shoulder, into small pieces, adding a little fat. Cut up a third of a carrot and one onion in small pieces. Put over the fire with water to cover and cook at the simmering point for two hours. Add salt, pepper and finely-minced parsley. Mix two tablespoonsful of flour with two of cold water and add to the stew. Cook five minutes. Place the stew on a platter and arrange around it by spoonfuls, salted, boiled rice.

Servian Rice With Meat.—Cut up a pound of beef from the shoulder, cut in inch squares. Fry a large onion in a little suet, then put in the meat, season with salt and paprika and cook slowly over a slow fire. Add a half pound of rice and boiling water. Cook until the rice is tender. Serve hot.

## Victims of Superstition.

Eighteen girls of Vassar, Transylvania, have been drowned in the River Aluta. There is a local tradition that any young woman who bathes in the river at midnight will be married before the year has expired.

Twenty young women from the town, desirous of obtaining husbands, went at the appointed time to bathe. The current was very strong and swept the girls away, only two being saved.

## CURIOUS BITS OF HISTORY

## THE CZAR'S AIRLINE RAILROAD.

By A. W. MACY.  
Automatic power is well illustrated by the story of the building of the railroad connecting St. Petersburg and Moscow. Two Americans were employed. It is said, to lay out and build the line. When the plans were all ready they laid them before Emperor Nicholas. Noticing at once that the line deviated in some places to avoid difficulties and in others to tap certain important cities and towns, he shook his head and said it wouldn't do; that he wanted no such twisting railway lines in his dominions. Taking a ruler and pen, he drew a straight line between the two cities. "There," he said, "a straight line is the shortest distance between two points. Make your road follow this line." Thus it comes that there is one railroad almost or quite as direct in reality as it appears on the map.

DANCING.  
WE associate dancing with the ball room, the waltz and the two-step, but savage nations dance their religious feelings and grief finds expression in the funeral march. Dancing in the broader and truer sense is the expression of thought and feeling in rhythmic movement. Folk dances like folk tales and folk songs are poetic expression of a people's experience and like language between the national temperament.

In England the revival of the Morris dances and in this country recently, the pageants and celebrations made interesting and beautiful by folk dances of our many people, have caused an awakening to the past meaning and the future possibilities of the dance. The Greeks danced to old age and dancing was to them an art like poetry and music. So it should be in America.

At Western High School here in Washington, the teacher of singing has, just for the love of it, made an experiment in training groups of girls to dance in the free creative spirit. In reasonable weather, they practice out of doors. In the springtime they have a festival on the hillside among the trees that is very beautiful. Miss Bently, who has so successfully worked this idea out in relation to music, tells me that ease of mind and manner, joy and cheer, appreciation of nature and art, come naturally with this higher education for bodily expression.

When you see it you wonder why all the boys and girls in America are not being trained to dance in this way in our public schools. Away with prejudice against dancing! Let children dance in rhythm, dance out of doors on the lawn, expressing thought and feeling in rhythmic action and they will never be satisfied to just go around and round until late hours in a hot, stuffy ball room.

## SET IN POINT ED FOX AN SATIN.

A distinctive feature of the winter fashions in furs is the use of satin and velvet in combination with even the choicest skins. It is quite the evidence and a very convenient and economical style it is since it allows for the refashioning of fur pieces and the enlarging of muffs without the usual expense for added fur.  
A handsome set of pointed fox seen in the windows of one of New York's great stores will serve to illustrate this point nicely. The wide throw was very long, lined throughout with that exact process.

## MUSHROOMS.

Frequent cases of poisoning from eating mushrooms, fresh and canned, are reported. There are more than 5,000 varieties of mushroom, only a few of which are edible. Some poisonous varieties resemble the edible so closely that it is not safe for one unacquainted with their distinguishing features to eat them as they may be found in the fields. Since the mushroom has been cultivated extensively for canning it can be found in the grocery stores. There is no special nutritive quality in the mushroom to warrant the risk and expense of using it. A normal appetite never craves such food.
